

# Pastel Buttermints Custom Mints & Candy

Remember the template paper before spreading your mixture.

## ■ Mould Size

Use a rectangular or square mould to give the mixture form and shape when pressed.

## ■ Red Line

This is where you should spread the colour for the candy when the mixture is pressed.

## ■ Yellow Line

This is where you should spread your mixture to give it the general shape when pressed.

Spread your Mixture Pastel Buttermints

Adjusts with Mould: 1.5 x 0.5
