

Soft Peppermint Custom Mints & Candy

Remember the template layer before spreading your mixture.

Bleed Line

Used when printing or coloring to allow a gap to minimize bleed-through from the reverse side.

Cut Line

This is where you'll cut out the pieces. The actual size of the pieces is the cutting line.

Registration

This is used to ensure registration when printing or coloring from the printed layer directly.

Final Cut Size: Soft Peppermint
Adjusts with Bleed: 1.0 x 0.5
